**COVER LETTER**

Dear Mr. Zimmermann,

The most important advice I would give to everyone is to enter the Green Card Lottery every year.

I think it's the easiest thing to do. Other than that, it's important to hold on to your dream.

Every year, the Green Card Lottery gives 55,000 people the opportunity to immigrate to the United States without the need of exceptional qualifications, US relatives, or a workplace in the United States.

Anyone who meets the entry requirements gets a chance to win the lottery with just a few simple steps. Keep it up, stay consistent, believe in your dream, and then you'll make it.

You can build a great life in the USA! It's an incredible experience, and I can only recommend everyone to believe in the American Dream!

Yours faithfully,

Future employee
